

All Hale the king of electricians

ADVERTISER'S
ANNOUNCEMENT

I CREATED Hale Electrics nearly 20 years ago; the idea being to provide a high quality service for homeowners. I had seen a big decline in the service they were getting from tradesmen and decided to break the mold with a professional, high quality service from highly trained and qualified electricians. With an easily recognised brand of a uniform, the latest tools and sign-written vans, our clients would be filled with confidence the moment we arrived at their door.

We changed the way emergency tradesmen charged by scrapping 'call out' and other extraneous charges: we only charge for the time we are working for you. Being totally transparent about charges has been a

"I felt a high quality customer orientated service was missing in the industry; so I created Hale Electrics Ltd to fill that gap."
Calvin Hale

great way to instill trust and it shows we have nothing to hide: our rates are clearly shown on our website. I am proud to say prices have stayed the same for eight years: while everything else has gone up, we have kept our prices the same as a thank you to all our loyal and new clients.

After a humble start in an estate car with a few tools, I am proud to say we have a small fleet of vehicles, fantastic team of engineers and office staff, all of which makes for a smooth customer experience. This is shown in our 500+ 5-star reviews.

We are still working toward our environmental ideals as we dive even deeper into the world of renewable energy and energy saving solutions. As electric vehicle charge point specialists and LED lighting upgrade experts, we have seen the savings customers experience through our work. Solar panel installations, battery storage and eco heating solutions are all on the horizon for next year.

We love to provide the latest fuse board upgrades, state of the art LED installations and upgrades, EICRs... practically anything that has a wire!

Now, with Christmas coming up, don't leave all those electrical jobs around the home to the last minute: get in touch and become one of the 100s of happy customers we help on a regular basis.

Hale Electrics Ltd

QUALITY • TRUSTED • PROFESSIONAL

- Fuse board upgrades
- LED lighting upgrades
- EICR/Landlord Certificates
- Emergency calls outs and so much more...
